### EVENT REPORTS

The annual photography exhibition and competition was staged on 12th May. Although entries were down from previous years, standards were high, and we hope to display all entries at the new Remal Mall.

Winners were decided by popular vote.

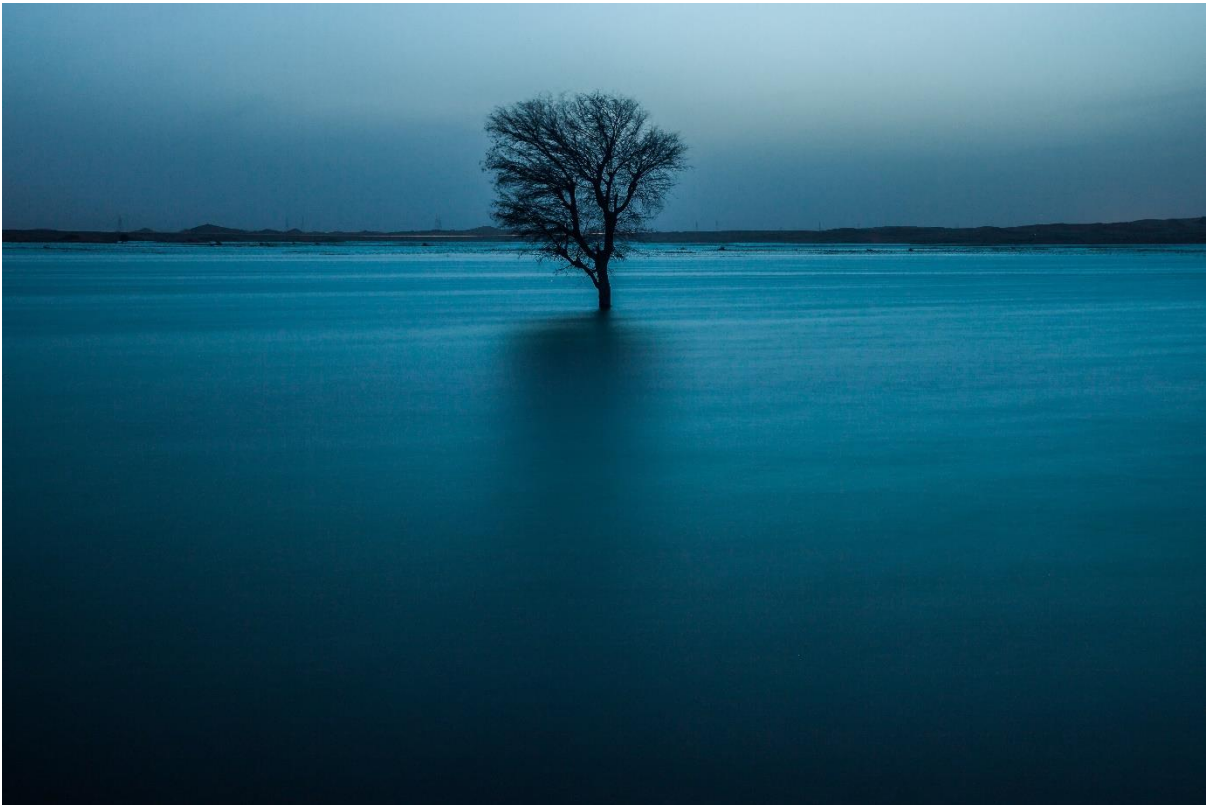

Amro Abu Kuhail won the Culture and Tradition category with 'Tomorrow' (see below).

Amro Abu Kuhail won another award for 'Dinner time' below, under the Behaviour category.

Alberto Gonzalez Alcalde won the 'Scapes section with 'Tree in the Water' below.

Special mention goes to Dr Rob Whelan as the most popular photographer, whose many votes were divided between different pictures (one is shown below – Cuttlefish Couple).

Also worthy of mention was Denis Anderson who lost votes due to an error in categorisation. (Entirely the chairman's fault.) Here is one of his entries, "Last Instar larva".
